Scent Consultations

Our scent consultation is the perfect starting point for anyone looking to explore fragrance more intentionally.

This is a guided 1-on-1 30-minute virtual session, where we take time to uncover:

- Your fragrance personality
- Scent families that resonate with you
- Notes you're drawn to (and those you dislike)
- Fragrances that align with your lifestyle, mood, and self-expression

You'll leave with a clearer understanding of what suits you — whether you're choosing from your existing collection, buying your next perfume, or preparing for a custom creation.

The cost is R100 per consultation

Great for:

- Clients who are curious about commercial perfumes but unsure what they want
- Anyone wanting to understand scent beyond the bottle

Think of it as a scent therapy session — reflective, expressive, and fun.
